WINTER READY - INDUSTRIAL - PORTABLE

## POLAR BEAR SAFETY SHOWER

BUILT CANADA WINTER TOUGH.

# PB-100

The Polar Bear Safety Shower is the most cold resistant outdoor shower in North America. Safety and durability are the core concepts of this shower. It was designed from the ground up to function reliably every time.

Easy access eyewash during operation.

Strobe signal is visible from far distances and alerts site personnel when in use.

Heated 500 gallon tank. Held firmly in place by building frame. Built to last.

Illuminated front entry way for dark conditions. Strobe light alerts site personnel that shower is in use.

Alarm horn alerts site personnel during the use of the eyewash or shower.

Double heavy duty, impact resistant inside lighting. Fully illuminated interior of the shower.

Industrial grade, all stainless, wide diameter high volume water surface area dispersal pattern.

Drench hose attachment allows easy cleaning of workers coveralls or equipment.

Water resistant controls for operations. Offsite ethernet or cellular monitoring available.

Immediately in front of the user with high visibility red flag paddle.

Chemical storage tank for filling, flushing and adding preservatives to the main tank.

Huge, water resistant heater keeps the shower toasty warm. Temperature adjustable.

Transport the safety shower easily with any standard fork lift style equipment.

Stable, non-slip high traction tread plate. ensures firm footing during all seasons.

Clog resistant drain with threaded outlet. Hose or pipe connection.
